

Project Design Phase-II

Data Flow Diagram & User Stories

Date	04 July 2026
Team ID	
Project Name	Optimizing User, Group, and Role Management with Access Control and Workflows
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Administrator	User Management	USN-1	As an administrator, I can create users in ServiceNow	Users are successfully created.	High	Sprint-1
Administrator	Group Management	USN-2	As an administrator, I can create Project Team groups.	Group is created successfully.	High	Sprint-1
Administrator	Role Management	USN-3	As an administrator, I can create and assign roles.	Roles are assigned correctly.	High	Sprint-1
Project Manager	Project Management	USN-4	As a Project Manager, I can create projects and assign tasks.	Project and task records are created.	High	Sprint-2
Project Manager	Task Management	USN-5	As a Project Manager, I can assign tasks to Bob.	Task is assigned successfully.	High	Sprint-2
Team Member	Task Update	USN-6	As a Team Member, I can update task status and work notes.	Status and work notes are updated successfully.	High	Sprint-2
Team Member	Limited Access	USN-7	As a Team Member, I can view only tasks assigned to me.	Only assigned tasks are visible.	High	Sprint-2
System	Workflow Automation	USN-8	As the system, I automatically trigger approval after task completion.	Approval request is sent to Alice.	High	Sprint-2
